“ I have many wonderful memories of my Uncle Ronnie. When I was a kid, we used to go visit him in Red Bay. He also came to visit us a few times in Wichita Falls. I was so impressed because he was a school teacher and he used to build his own computers, radios and even built a vcr. I remember watching the movie "ice Castles" at his house. He also loved photography, and pictures. He loved children, especially his Grandchildren and Great-Grandchildren. I was so happy for him when he met the love of his life, Shirley, and I have no doubts that he is with her right now. He will be dearly missed! Love you, Unca Ronnie!
